CHILDREN OUR FUTURE

NITRAS - KIDS SELECTION

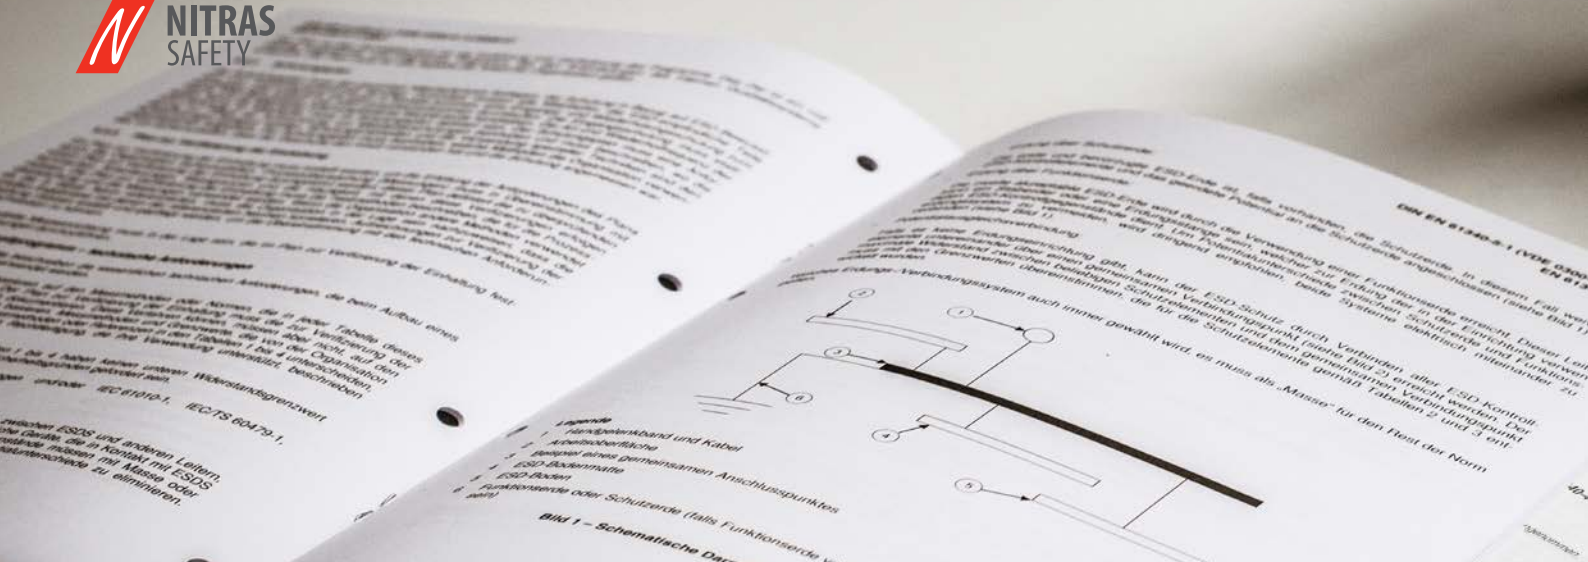

Children are our future and need special attention! Physical, psychological and social factors play a decisive role in the personal development of children. Parents serve as role models and children often want to do exactly what their parents do.

So that the little ones feel like the big ones, you will find the right range here with many useful details for adventurous explorers and little helpers: with robust gloves and high-quality outdoor clothing from NITRAS, children can simply discover more!

YOUR DIRECT LINK TO ONLINE OFFER

STANDARDS AND PICTOGRAMS

All performance levels, pictograms and information specified in this catalogue comply with the state as of September 2023. These are subject to change during the validity of this catalogue. Please contact us for any queries or current information. All information is subject to change.

General explanations of achieved performance levels (all tests were carried out under laboratory conditions):

- 1-6 / A-F Achieved test result (the higher, the better)
- 0 Minimum performance level not achieved
- X Not tested or not applicable due to the material or design

EN ISO 13688

Protective clothing - general requirements

General performance requirements for ergonomics, harmlessness, size designation, aging, compatibility and characterisation of protective clothing as well as the information that the manufacturer must provide with the protective clothing.

EN 1150

Visibility clothing for non professional use

Visual performance requirements for adult and youth visibility clothing for non-professional use. Visibility clothing for non-professional use is intended to visually highlight the wearer in all daylight conditions and in the dark, as well as when illuminated by vehicle headlights or searchlights.

EN 17353

Protective clothing - equipment for increased visibility for medium risk situations

General performance requirements for equipment for increased visibility in the form of garments or products capable of visually signalling the presence of the wearer.

Wash-care instructions

- | | |
|-----------------------------|-----------------------|
| Machine wash 60° C | Do not tumble dry |
| Machine wash 40° C | Warm iron |
| Machine wash 30° C | Cold iron |
| Do not wash | Do not iron |
| Do not bleach | Dry cleaning possible |
| Tumble dry, low temperature | Do not dry clean |

Hydrostatic head / Breathability

This pictogram indicates the hydrostatic head (mmH₂O) as well as the breathability (g/sqm/24h) of shell fabric or complete garments.

STANDARD 100 by OEKO-TEX®

STANDARD 100 by OEKO-TEX® is an independent testing and certification system for textile raw materials, intermediate and end products at all processing stages. The tests for harmful substances include substances forbidden by law, substances regulated by law, substances known to be harmful (but not yet legally regulated) and parameters for health care.

3M Scotchlite™ Reflective Material

3M Scotchlite™ Reflective Material ensures the early identification of people at dusk, darkness and poor visibility and protects them against possible serious accidents. Due to 3M Scotchlite™ Reflective Material, the user is more visible and it is possible to recognise him quickly. Therefore 3M Scotchlite™ Reflective Material is an important part of modern workwear.

3M Thinsulate™ Insulation / Isolant

3M Thinsulate™ Insulation / Isolant is characterised by its warming attributes. Despite of its light-weight and thin material it is considerably efficient. It helps to keep the body heat on a constant level and at the same time to carry moisture outwardly.

Reinforced with Canvas

This pictogram indicates clothing that has high-quality canvas reinforcements on crucial parts. Thanks to this refinement, the clothing is particularly robust and durable.

Grain leather

Durable, tear-resistant, robust, smooth surface, supple, sensitive, perfectly suitable for workplaces with requirements for resistant protective gloves.

Reflective elements

This pictogram indicates clothing that are equipped with reflective elements. Reflective elements are used for better visibility in poor visibility conditions.

SUSTAINABILITY TRAFFIC LIGHT**Packaging**

Packaging used consists entirely or partially of recycled materials.

**Social aspects**

The production is amfori BSCI-audited (or according to a comparable standard) and thus contributes to the improvement of social standards or working conditions in the country of production.

SIZE CHARTS

Following, we provide you with extensive and detailed information which is relevant for determining the correct sizes:

1. Garments
2. Gloves
