YOUR EXPERTS IN MEDICAL AND HYGIENE ARTICLES. SINCE 2015.

With this approach, we have established ourselves as a renowned manufacturer. From the very beginning, we have built and strengthened our global partnerships on the cornerstones of reliability, flexibility and trust. Our day-to-day operations are characterised by a wide product range, short lead times, high-quality assurance and a competitive price-performance ratio. As experts in disposable and reusable products, we also ensure that our NITRAS products and all the private labels we manufacture are always state-of-the-art and fully marketable. We have internalised these values within our NITRAS family and continue this important tradition to this day. Our personal, customer- and solution-oriented approach brings together the aspects mentioned above, creating a unique combination that serves as the foundation for steady growth. Side by side with our partners.

Our aim is to protect people's health and the environment, and to make life easier. We work towards this every day with great reliability, flexibility and expertise. We strive to offer a comprehensive range of disposable and reusable products for professional medical and non-medical applications, which is always available to everyone and delivered to the desired location within the shortest possible time. Trends, designs, innovations and the latest technology are incorporated into product development just as much as a competitive price-performance ratio. Because when people purchase a NITRAS product, we want to make a promise to them. A promise regarding features and quality that brings our brand value to life and thus develops a comprehensive and strong brand awareness. Furthermore, we are committed to offering continuously optimised, customer-specific

and individual solutions that meet our high standards.

Within our NITRAS family, we are committed to continuous, collaborative and sustainable growth. In this context, we aim to take into account and implement economic, environmental and social considerations throughout the entire value chain. Drawing on our personalised advice and high level of commitment, we seek to develop a successful and forward-looking business strategy that serves the well-being of all people and the environment.

YOUR ADVANTAGES

- + Over 10 years experience
- + Outstanding expertise
- + Sustainable quality assurance
- + Excellent price-performance ratio
- + Certified and monitored products (voluntary and statutory)
- + Professional and timely handling of private labels
- + Strong network
- + Continuous expansion of the product range
- + Shortest delivery times from stock
- + Support for your sales activities
- + Sustainability Task Force
- + Own office in Shanghai, China

Our aims are to protect people's health as well as the environment and make life easier.

BRANDS THAT CONNECT US

The relevance and sales figures of private labels have been increasing continuously and across all sectors for years. It is therefore currently no longer possible to imagine the shelves of supermarkets and DIY markets without private labels, because the advantages for the trade are significant.

ADVANTAGES FOR THE TRADE

On the one hand, the trade has more liberties with pricing policy thanks to private labels. On the other hand, private labels are perfectly suitable for distinguishing and defining one's own assortment from the competitors. In addition, private labels can be used to create product innovations that bring out the main points and add new products to the range.

PRIVATE LABELS WITH NITRAS

With us you do not only benefit from the advantages mentioned above. In addition, we can offer you an all-round carefree package on request, so that you can fully concentrate on your business and sales. Benefit

from our experience and know-how in personal protective equipment and workwear:

- + We conduct the certification process for you and take care of all technical documents and specifications
- + All products comply with the requirements of German and European legislation
- + Strong network in Asia
- + High quality assurance on site (own office and employees in Asia)
- + Timely and professional handling of your private labels
- + Support with promotional material

We would like to support you in implementing your goals with private labels, strengthening and profiling your market position and distinguishing your product range according to target groups - contact us!

REALISING PRODUCT INNOVATIONS

ALL-AROUND CAREFREE PACKAGE

STRENGTHEN MARKET POSITION

QUALITY IS OUR TOP PRIORITY

This applies not only to features such as materials, fit and protective function, but also to the freedom of the products from harmful substances and allergens. The latter plays a very important role in consumer and environmental protection.

OUR QUALITY MANAGEMENT SYSTEM

Our quality assurance begins with the raw materials of which our products are made of. This includes the inspection of raw materials and testing for risk parameters. As part of our supplier management, our suppliers are trained and informed on an ongoing basis (e.g. by means of questionnaires and training materials) so that we can ensure that all parties involved are informed about current events in the EU and to achieve consistent and high manufacturing quality. We check compliance with our requirements by means of on-site audits.

Finished goods are checked before shipment. This includes, among other things, inspections by our own and trained staff and spot checks carried out by independent third parties. As soon as the finished goods arrive at our warehouse in Germany, they

are again subjected to a precise incoming goods inspection (e.g. visual inspections, checks for risk parameters and protective functions). For this purpose we have our own testing equipment available on site.

In summary, we guarantee the following points and thus ensure sustainable and comprehensive quality assurance:

- + Pollutant management
- + Supply chain management / development
- + Audits (announced and unannounced)
- + Incoming goods inspection (raw materials)
- + Outgoing goods inspection (produced goods)
- + Proofs and certificates by third parties (e.g. materials, BSCI, REACH, ILO)

WE SEE THE FUTURE GREEN

Sustainability is becoming increasingly important and affects each and every one of us – whether in our personal or professional lives. In addition to the many initiatives already being driven forward in the EU and in Germany, which we are implementing, we will also ensure that this important issue is given due consideration throughout our entire value chain. In doing so, we consistently take appropriate measures to protect the environment and conserve resources, and we are committed to complying with relevant statutory and voluntary obligations and agreements.

OUR GUIDING PRINCIPLES

We always demand the highest quality standards, which also go beyond legal requirements. To meet our quality standards, close and trusting cooperation with all our partners is imperative. To ensure this, we have developed guiding principles that define a uniform framework for this:

- + Management practices that respect the rights of all employees
- + Providing a safe and healthy workplace for all employees
- + Provision of safe products for all partners
- + Minimising negative impacts on the environment

OUR CORE STANDARDS

In addition to our guiding principles, which form the cornerstone for close and trusting cooperation, we have developed and specified core standards that complement and build on them. These can be divided

into three areas:

- + Social ethical aspects
- + Prohibited and/or restricted substances and allergens
- + Ecological sustainability

OUTLOOK

We always want to set ourselves new, realistic, but also ambitious goals in order to make the NITRAS brand even more sustainable. Our Sustainability Task Force keeps an eye on all areas of the company and explores where there is still a need for optimisation. We will keep you informed about our developments.

Do you have any suggestions or ideas for improvement? Then please feel free to contact us, we look forward to hearing from you!

Would you like to find out more about sustainability at NITRAS? Then take a look online!

FAST, FLEXIBLE AND MODERN

In recent years, our entire logistics as well as the warehouse have been modernised and optimised in order to be able to cope with the increasing demands on sustainability and future viability.

WAREHOUSE MANAGEMENT SOFTWARE

Our warehouse management software (WMS) serves as an interface between our ERP and AutoStore® systems. A two-dimensional barcode system helps to optimally utilise the more than 15,000 sqm of storage space capacity. For the employees, this results in optimised picking rounds and shortened walking and driving distances. The entire process, from order entry to dispatch, has been significantly improved in order to be able to react as quickly as usual in the future when incoming orders increase.

AUTOSTORE®

In order to make the best possible use of our existing storage space, we have chosen AutoStore®, an innovative system for automatic storage and picking.

Via a track system (grid), containers are picked up by high-speed robots, sorted and delivered directly to the connected port for incoming or outgoing goods. The compact storage solution reduces the space required by around 75% compared to the previous storage system. In addition to fast availability, the system is also very energy-efficient.

ENLARGEMENT WAREHOUSE AND OFFICE

In order to continue to meet the high demands of our partners in terms of availability and delivery times, we have expanded the existing warehouse and office space. The building was constructed on a plot of land of approx. 11,400 sqm and, in addition to a modern, 16-metre-high warehouse with 10,500 pallet spaces on an area of 5,000 sqm, also includes a representative showroom and a laboratory for product testing.

TRAINING / CONSULTING

CREATIVE SUPPORT

WE ARE HAPPY TO SUPPORT YOU AT ANY TIME

TRAINING / CONSULTING

We are also at your disposal for all topics relating to our product range, standards, certifications, material science or customer-specific documents (e.g. glove plans for your own business). Here you can benefit from our long-term experience and our trained staff.

SUPPORT OF YOUR SALES ACTIVITIES

We also support you before and after the purchase and make sure that you receive creative and technically flawless materials for your sales promotion (e.g. individual flyers, catalogues, images). So you can fully concentrate on your daily business - we take care of the rest.

ALWAYS AND EVERYWHERE THERE FOR THEM

As an international company specialising in disposable and reusable medical and non-medical products, we are a preferred partner to industry, retail and the beauty sector in over 30 countries. The expert and tailored advice we provide to our partners at home and abroad, our extensive product range, our fair value for money, and our fast and reliable delivery service are the keys to our shared success – and have been since 2015.

We are always happy to arrange face-to-face meetings at your premises to showcase new and existing products, deliver product training or discuss general topics. Take advantage of our high-quality service and expert advice! Whether at your premises, at trade fairs or together with you at your customers' premises!

Our staff have many years of experience in the industry and are available to assist you throughout Germany, Europe and Africa. For appointments and enquiries, please contact us or get in touch directly with the relevant sales representative in your region:

WE SHARE OUR WORLD WITH YOU

Follow us on social media and experience entertaining as well as informative posts about NITRAS, personal protective equipment and workwear! Besides news, product information and inspiration, you can also easily communicate with us and ask your very own questions.

Our presences on Instagram, Facebook, LinkedIn and YouTube give you detailed insights into the topics that concern us. Thanks to our social media channels, you will be among the first to receive information on top issues and participate live in the daily news.

Join the NITRAS family - we look forward to meeting you!

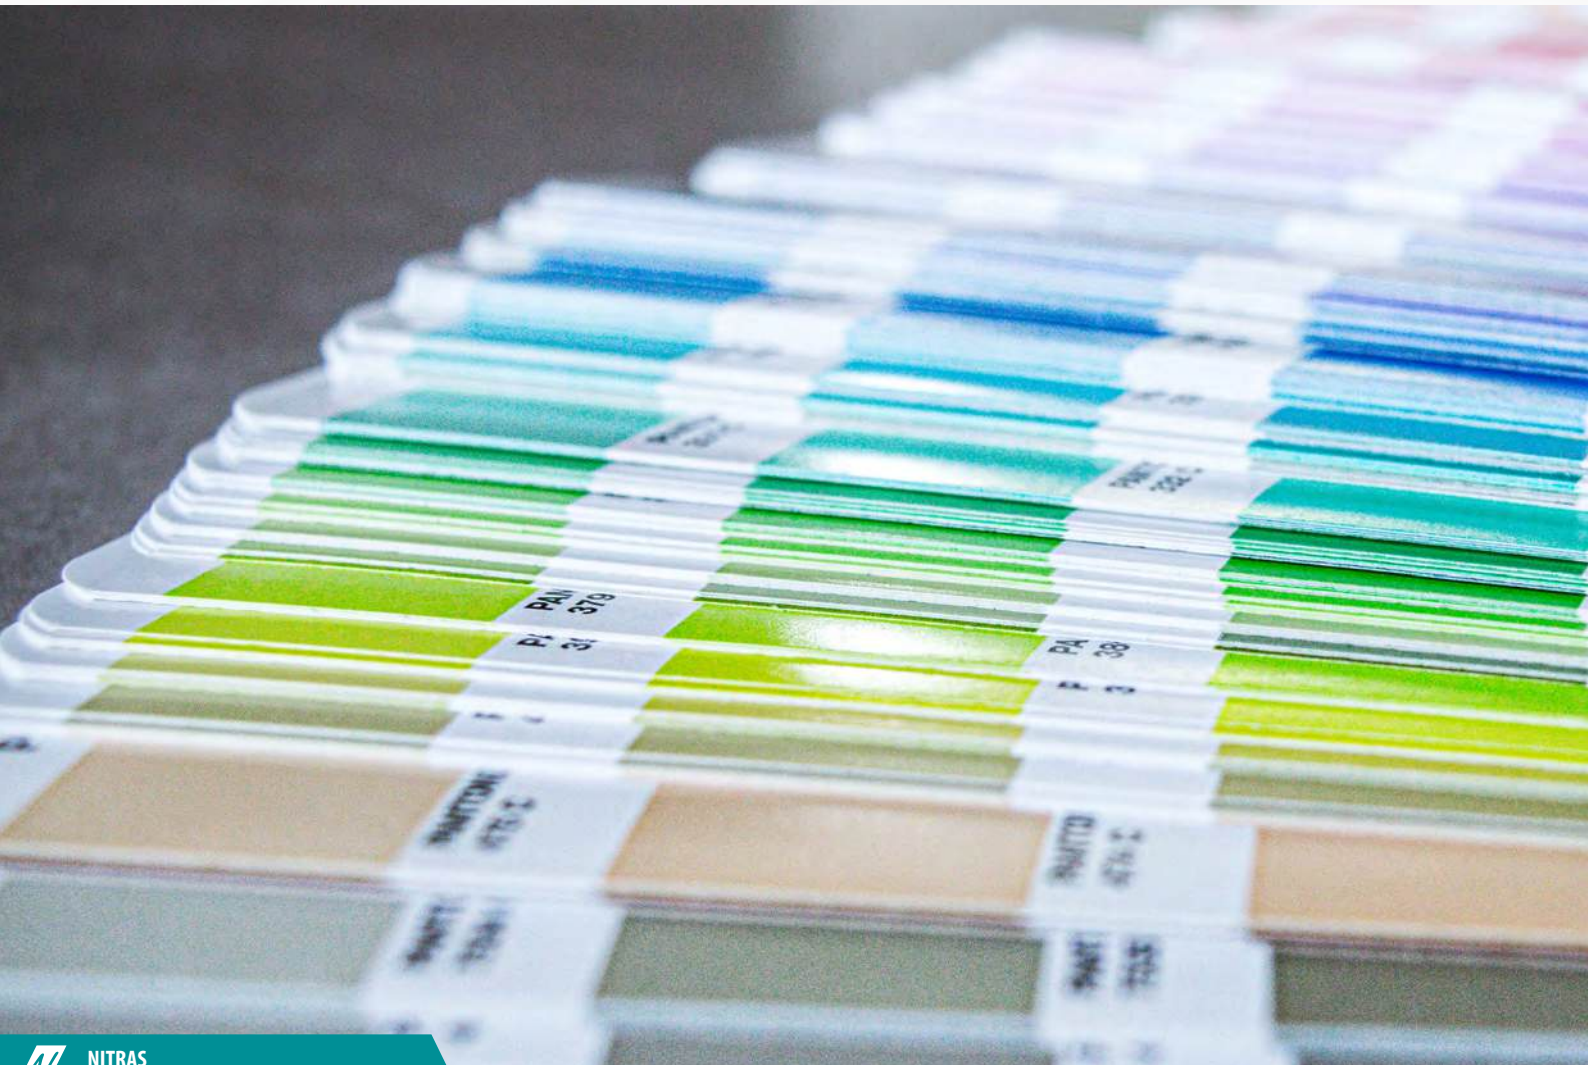

YOUR EXPERT IN PPE AND WORKWEAR - SINCE 1986

NITRAS was founded in 1986 and, under the NITRAS SAFETY brand, has established itself as a leading supplier of personal protective equipment and workwear. Having specialised in an extensive and robust range of hand and arm protection, the product range has been steadily expanded. NITRAS SAFETY now also offers a wide range of workwear, protective clothing, foot protection, respiratory protection, eye protection, head protection, hearing protection and kids selection.

NITRAS SAFETY is your trusted partner for personal protective equipment and workwear. NITRAS specialises in working with technical wholesalers and supplies distribution partners in over 30 countries. To this day, both companies are owner-managed and place the utmost importance on the quality of our products.

Our own brand, NITRAS, was registered in the mid-1990s and has since established itself as a renowned and reliable brand within the industry. The brand logo serves as a mark of quality that reflects our high standards.

You can also find further information about NITRAS SAFETY at nitrassafety.com.

THE RIGHT COLOUR FOR EVERY NEED

Below, we have provided a clear overview of the colour variants available in our range. You will find the colour variants available for each item listed under the relevant product description. Each colour code consists

of four digits. The first two digits represent the main colour and the last two digits the contrasting colour. For plain-coloured items, the colour code ends with '00' (plain).

COLOUR	COLOUR CODE		
Uni	00		Green 30
Black	10		Lime 42
White	11		Yellow 43
Grey	12		Orange 44
Transparent	14		Brown 50
Natural colour	16		Taupe 55
Silver	19		Red 60
Royal blue	20		Purple 62
Navy blue	21		Light pink 63
Blue	22		Pink 64
Light blue	23		Lavender 65
Dark blue	24		Bordeaux 66

EVERYTHING YOU NEED

STANDARDS / PICTOGRAMS

All performance levels, pictograms and information listed in this catalogue are correct as of February 2026. This information may change during the validity period of this catalogue. Please do not hesitate to contact us at any time should you have any queries or require up-to-date information. All information is provided without guarantee.

EN 14683 Medical face masks

This European standard defines the general requirements regarding the transition of infectious germs during surgical operations in operating rooms and other medical areas. Sources of infections can be, for example, noses and mouths of members of the operation team. The main focus for the use of medical face masks is the protection of the patient against infectious germs and in certain situations also the protection of the person wearing the masks against splashes of contaminated liquids and living particles. Medical face masks can also be worn by patients and other persons in order to prevent the spread of infections, especially in infectious and pandemic areas.

Type	Bacterial filtration efficiency (BFE)	Splashguard
I	≥ 95	No
II	≥ 98	No
IIR	≥ 98	Yes

EN 13034 Protective clothing against liquid chemicals

Performance requirements for chemical protective clothing offering limited protective performance against liquid chemicals (Type 6 and Type PB [6] equipment).

EN 14126 Protective clothing against infective agents

Performance requirements and test methods for protective clothing against infective agents.

For food contact

Products and items which are determined to come into contact with food.

Detectable

This product identifies articles that are detectable. Thanks to integrated metal or X-ray recognisable components, they can be recognised by detection systems. This increases product safety and minimises the risk of contamination.

AI

Indicates images that have been created partly or entirely using AI.

The following recommendations are intended to provide a general guide as to which product is suitable for which industry. Some products are also suitable for other applications. This is based on colours typical of the industry and the specific functions of the individual products. Please do not hesitate to contact us for further information.

4230

Material: Polyethylene, white
Miscellaneous: Dimensions 80 x 125 cm
Packaging unit : 10 pieces

NITRAS PE apron, white (colour code: 1100), polyethylene, durable, lightweight material, 80 x 125 cm, thickness approx. 20 µ, embossed, very tear-resistant, pleasant wearing comfort, back straps for a individual fit, protection against dirt and splashes, packed loosely, for food contact, polybag per 100 pieces

Shell fabric: 100% polyethylene

4237

Material: Polyethylene, black
Miscellaneous: One size
Packaging unit : 5 pieces

NITRAS PE apron, black (colour code: 1000), polyethylene, durable, lightweight material, 76 x 125 cm, thickness approx. 30 µ, embossed, very tear-resistant, pleasant wearing comfort, back straps for a individual fit, protection against dirt and splashes, packed loosely, polybag per 50 pieces

Shell fabric: 100% polyethylene

4275

Material: Polyethylene, light blue
Miscellaneous: Dimensions 76 x 125 cm
Packaging unit : 10 pieces

NITRAS PE apron, light blue (colour code: 2300), polyethylene, durable, lightweight material, 76 x 125 cm, thickness approx. 55 µ, smooth, with practical tear-off perforation for easy taking out, very tear-resistant, pleasant wearing comfort, back straps for a individual fit, protection against dirt and splashes, for food contact, packed in blocks, polybag per 50 pieces

Shell fabric: 100% polyethylene

004200

Material:	Polyethylene, white
Miscellaneous:	Size XL
Packaging unit :	10 pieces

NITRAS PE visitor coat, transparent (colour code: 1400), polyethylene, durable, lightweight material, not opaque, water-repellent, length approx. 115 cm, loose fit for comfortable wear over clothing, very tear-resistant, pleasant wearing comfort, with press studs, protection against dirt, single packaging for more hygiene, polybag per 50 pieces

Shell fabric: 100% polyethylene

4514

Material:	Polypropylene, white
Miscellaneous:	Sizes L - 3XL
Packaging unit :	50 pieces

NITRAS PP overall, white (colour code: 1100), Polypropylene, breathable, pleasant wearing comfort, elasticated waistband, hood, cuffs and hem for a better fit and perfect hold, continuous zipper with cover, protecting clothing from dirt, single packaging for more hygiene

Shell fabric: 100% polypropylene

4515

Material:	Polypropylene, white
Miscellaneous:	Sizes L - 3XL
Packaging unit :	50 pieces

NITRAS PP overall, white (colour code: 1100), polypropylene, breathable, pleasant wearing comfort, with collar, elasticated waistband, cuffs and hem for a better fit and perfect hold, continuous zipper with cover, protecting clothing from dirt, single packaging for more hygiene

Shell fabric: 100% polypropylene

4520

Material: Polypropylene, white
Miscellaneous: Size 2XL
Packaging unit : 50 pieces

NITRAS PP visitor coat, white (colour code: 1100), polypropylene, breathable, pleasant wearing comfort, with collar, elasticated cuffs for a better fit and perfect hold, continuous zipper, with practical inside pocket, protecting clothing from dirt, single packaging for more hygiene

Shell fabric: 100% polypropylene

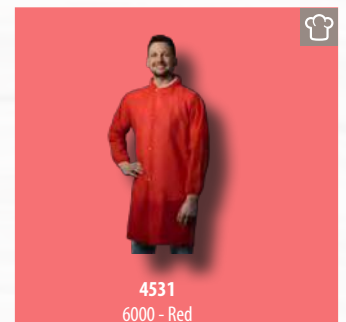

4530

Material: Polypropylene, white
Miscellaneous: Sizes XL-3XL
Packaging unit : 50 pieces

NITRAS PP visitor coat, white (colour code: 1100), polypropylene, breathable, pleasant wearing comfort, with collar, elasticated cuffs for a better fit and perfect hold, with press studs, protecting clothing from dirt, single packaging for more hygiene

Shell fabric: 100% polypropylene

4535

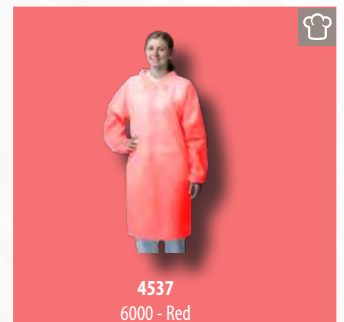

Material: Polypropylene, white

Miscellaneous: Sizes L - 3XL

Packaging unit : 50 pieces

NITRAS PP visitor coat, white (colour code: 1100), polypropylene, breathable, pleasant wearing comfort, with collar, elasticated cuffs for a better fit and perfect hold, with hook and loop fastener, protecting clothing from dirt, single packaging for more hygiene

Shell fabric: 100% polypropylene

4540

Material:	Polypropylene, green
Miscellaneous:	Size 2XL
Packaging unit :	10 pieces

NITRAS PP visitor coat, green (colour code: 3000), polypropylene, breathable, pleasant wearing comfort, with round collar, length approx. 110 cm, elasticated cuffs for a better fit and perfect hold, to tie behind the neck and body, protecting clothing from dirt, for food contact, polybag per 10 pieces

Shell fabric: 100% polypropylene

004546

Material:	Polyethylene / laminate film, blue
Miscellaneous:	Size 2XL
Packaging unit :	50 pieces

NITRAS medical gown, blue (colour code: 2200), polyethylene with laminate film, durable, breathable and water-repellent, length approx. 110 cm, pleasant wearing comfort, with round collar, soft cotton ribbed cuffs for a better fit and perfect hold, to tie behind the neck and body, protection against infection agents, Type PB [6]-B, single packaging for more hygiene

Shell fabric: 100% polyethylene

Type PB [6]-B

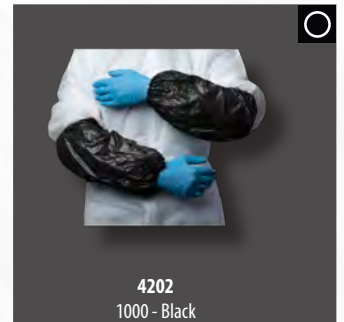

4200

Material: Chlorinated polyethylene, white

Miscellaneous: For food contact

Packaging unit : 20 pieces

NITRAS CPE arm covers, white (colour code: 1100), chlorinated polyethylene, durable, water-repellent, length approx. 40 cm, thickness approx. 20 µ, elasticated cuffs for better fit and optimal hold, reliable protection for the forearms against dirt, for food contact, polybag per 100 pieces

AI

4210

Material: Polypropylene / chlorinated polyethylene, white / blue
Miscellaneous: Length approx. 41 cm
Packaging unit : 16 pieces

NITRAS shoe covers, polypropylene, white, CPE outsole, blue (colour code: 1122), breathable and lightweight, water-repellent outsole, length approx. 41 cm, width approx. 20 cm, thickness outsole approx. 60 µ, with elastic band for optimal hold, lightweight and easy to put on and take off, prevent dirt, germs or liquids from being brought in, polybag per 50 pieces

4220

Material: Chlorinated polyethylene, blue
Miscellaneous: Length approx. 40 cm
Packaging unit : 20 pieces

NITRAS CPE shoe covers, blue (colour code: 2200), chlorinated polyethylene, durable, water-repellent, length approx. 40 cm, thickness approx. 35 µ, embossed, with elastic band for optimal hold, prevent dirt, germs or liquids from being brought in, lightweight and easy to put on and take off, polybag per 100 pieces

422845

Material: Chlorinated polyethylene, black
Miscellaneous: Length approx. 40 cm
Packaging unit : 5 pieces

NITRAS CPE shoe covers, black (colour code: 1000), chlorinated polyethylene, durable, water-repellent, length approx. 40 cm, thickness approx. 45 µ, embossed, with elastic band for optimal hold, prevent dirt, germs or liquids from being brought in, lightweight and easy to put on and take off, polybag per 100 pieces

420050

Material: Polyethylene, transparent
Miscellaneous: Dimensions approx. 41 x 46 cm
Packaging unit : 10 pieces

NITRAS PE boot covers, transparent (colour code: 1400), polyethylene, thickness approx. 50 µm, approx. 41 x 46 cm, embossed, with elastic band for optimal hold, very hygienic, prevent dirt, germs or liquids from being brought in, lightweight and easy to put on and take off, polybag per 50 pieces

4830

Material: Polypropylene, blue

Miscellaneous: One size

Packaging unit : 10 pieces

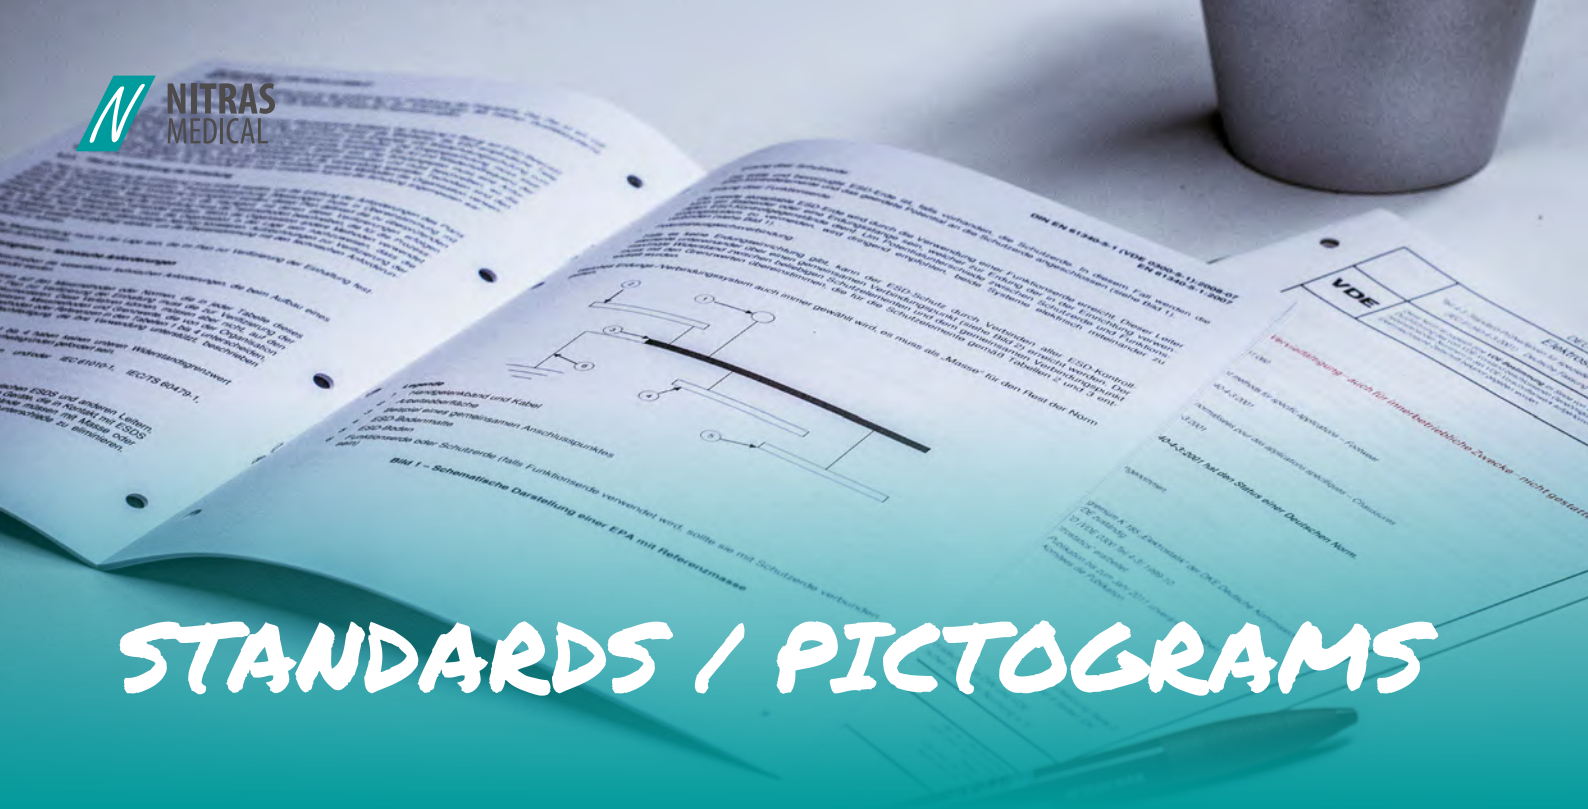

NITRAS disposable thong, blue (colour code: 2200), polypropylene, breathable, pleasant wearing comfort, opaque, elastic waist for optimal fit, with white contrast thread, unisex, single packaging for more hygiene, polybag per 50 pieces

STANDARDS / PICTOGRAMS

All performance levels, pictograms and information listed in this catalogue are correct as of February 2026. This information may change during the validity period of this catalogue. Please do not hesitate to contact us at any time should you have any queries or require up-to-date information. All information is provided without guarantee.

General explanations of achieved performance levels (all tests were carried out under laboratory conditions):

- 1-6 / A-F Achieved test result (the higher, the better)
- 0 Minimum performance level not achieved
- X Not tested or not applicable due to the material or design

EN ISO 21420 Protective gloves - General requirements and test methods

This standard defines the general requirements and relevant test procedures for glove design and construction, resistance of glove materials to water penetration, innocuousness, comfort and efficiency, marking and information supplied by the manufacturer applicable to all protective gloves.

EN 421 Protective gloves against ionizing radiation and radioactive contamination

Requirements and test methods for protective gloves against ionising radiation and radioactive contamination. The standard applies to gloves that protect the hand and various parts of the arm and shoulder. It also applies to gloves to be fitted in permanent enclosures.

EN 388 Protective gloves against mechanical risks

ABCDEP

Requirements, test methods, marking and manufacturer's information for protective gloves against the mechanical risks of abrasion, cut, tear, puncture and, where applicable, impact.

Test parameter	Performance level
A Abrasion resistance	1-4
B Blade cut resistance (Coupe)	1-5
C Tear resistance	1-4
D Puncture resistance	1-4
E Blade cut resistance (TDM)	A-F
P Protection against impact	P

EN ISO 374-1 Protective gloves against chemicals and micro-organisms

ABCDEF

Requirements for protective gloves designed to protect the user against hazardous chemicals and microorganisms:

- Type A: at least six test chemicals (protection index at least class 2 each)
- Type B: at least three test chemicals (protection index at least class 2 each)
- Type C: at least one test chemical (protection index at least class 1)

Test parameter		Classes	
A-F	Code letter for chemicals	1-6	
Code letter	Test chemical	Code letter	Test chemical
A	Methanol	J	n-Heptane
B	Acetone	K	Sodium hydroxide 40%
C	Acetonitrile	L	Sulphuric acid 96%
D	Dichloromethane	M	Nitric acid 65%
E	Carbone disulphide	N	Acetic acid 99%
F	Toluene	O	Ammonium hydroxide 25%
G	Diethylamine	P	Hydrogen peroxide 30%
H	Tetrahydrofurane	S	Fluoric acid 40%
I	Ethyl acetate	T	Formaldehyde 37%
Breakthrough time (minutes)	Protection index	Breakthrough time (minutes)	Protection index
> 10	Class 1	> 120	Class 4
> 30	Class 2	> 240	Class 5
> 60	Class 3	> 480	Class 6

EN ISO 374-5 Protective gloves against dangerous chemicals and micro-organisms

VIRUS

Requirements for protective gloves designed to protect the user against hazardous chemicals and microorganisms.

Addition underneath the pictograms	Protection against
No addition	Bacteria, fungi
VIRUS	Bacteria, fungi, viruses

ISO 18889 Protective gloves for users of plant protection products

Requirements and test methods for protective gloves for users of plant protection products. Hands and forearms should be protected from contact with these plant protection products. These requirements apply to gloves made of elastomer and polymer materials.

G1 gloves are suitable if the potential risk is relatively low. These gloves are not suitable for use with concentrated pesticide formulations and/or for scenarios where mechanical risks exist.

G2 gloves are suitable when the potential risk is higher. These gloves are suitable for use with both diluted and concentrated pesticides. G2 gloves also fulfil the minimum requirements for mechanical resistance and are therefore suitable for activities that require gloves with minimal mechanical strength.

EN 455 Medical gloves for single use

Requirements and testing for freedom from holes, physical properties, biological evaluation and shelf life determination of medical gloves for single use.

Powdered

This pictogram indicates, that the related disposable gloves are powdered.

Powder-free

This pictogram indicates, that the related disposable gloves are powder-free.

For food contact

Products and items which are determined to come into contact with food.

AQL

AQL
0,65

AQL
1,5

The AQL (Acceptable Quality Level) defines a precisely procedure at which a certain subset of a good is allocated for a sample. This sample is tested according to settled standards and specifications. From the received results, it is possible to draw conclusions about the quality of the goods. The higher the requirements for a product are, the more stricter are the predefined guidelines. The AQL is therefore a statistical method for determining the quality. Medical gloves must be aseptic and must comply with DIN EN 455. An AQL (Accepted Quality Level) of less than 0.65 or 1.5 is to be observed. The gloves are only tested for water resistance.

Premium quality

The quality of our products is our first priority and our whole product range is meeting our high standards. Products which have further premium features (e.g. due material selection, fitting, characteristics, finishing) are marked with this pictogram.

Made in Germany

Indicates products manufactured in Germany.

AI

Indicates images that have been created partly or entirely using AI.

NITRAS SAFETY

Indicates products sold under the NITRAS SAFETY brand.

COLOUR CODE SYSTEM

The colour-coding system makes it easy to identify the sizes at a glance thanks to the different colours on the edges of the boxes.

Size	XS	S	M	L	XL	2XL
Colour						

MATERIALS

Disposable gloves are used in sectors such as healthcare and the food industry, and are designed to protect users, patients and products. They can offer protection against microorganisms such as viruses and bacteria. Depending on the material, they also protect against certain chemicals. The choice of material and manufacturing process play a key role in determining the level of protection, comfort and suitability for use. Below, we provide an overview of the most important materials, their characteristics and advantages.

ADVANTAGES / FEATURES / APPLICATIONS

LA

Latex

Excellent grip in both dry and wet conditions, highly flexible and stretchy, very elastic, highly tear-resistant, excellent tactile sensitivity, ideal for workplaces where a particularly good grip is required (handling smooth and/or slippery objects or surfaces)

NI

Nitrile

Durable, robust, excellent grip in both dry and oily conditions, very high mechanical strength, very high abrasion resistance, resistant to oils and greases, ideal for workplaces with high demands for durable and abrasion-resistant protective gloves

VI

Vinyl

Soft, stretchy, highly sensitive, smooth surface, ideal for workplaces with high hygiene standards

PE

PE

Lightweight material, resistant to moisture, grease and oil, odourless, ideal for workplaces with high hygiene standards, protection against moisture

INDUSTRY GUIDE

AI

The following recommendations are intended to provide a general guide as to which product is suitable for which industry. Some products are also suitable for other applications. This is based on colours typical of the industry and the specific functions of the individual products. Please do not hesitate to contact us for further information.

BEAUTY EDITION

Beauty and hair salons, nail salons, massage parlours, the beauty industry, podiatry

BLACK EDITION

Tattoo / piercing studio, bar / restaurant, food truck

CARE EDITION

Care home / retirement home, residential / mobile care service, home care

CLEANING EDITION

Building cleaning, window cleaning, cleaner, crime scene cleaning, disinfection

DENTAL EDITION

Dentist, oral and maxillofacial surgery, dental laboratory

FOOD EDITION

Food processing / production, canteen / commercial kitchen, Catering

MEDICAL EDITION

Medical practice, clinic / hospital, medical center, medical care center

VINYL DISPOSABLE GLOVES

AI

8100 // VINYL PF

Material:	Vinyl, transparent
Coating:	-
Size(n):	XS-XL
Packaging unit :	10 pieces
Certification:	-

NITRAS VINYL PF, vinyl disposable gloves, transparent (colour code: 1400), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, AQL 1.5, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, medical devices class I, PPE risk category I, box per 100 pieces

8101 // VINYL P

Material:	Vinyl, transparent
Coating:	-
Size(n):	S-XL
Packaging unit :	10 pieces
Certification:	-

NITRAS VINYL P, vinyl disposable gloves, transparent (colour code: 1400), non-sterile, rolled edge, powdered, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, AQL 1.5, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, medical devices class I, PPE risk category I, box per 100 pieces

AI

8200 // IDEAL CARE

Material:	Latex, natural colour
Coating:	-
Size(n):	XS-XL
Packaging unit :	10 pieces
Certification:	-

NITRAS IDEAL CARE, latex disposable gloves, natural colour (colour code: 1600), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, micro-roughened surface, colour code system for sizes, AQL 1.5, particularly sensitive, perfect for working with small parts, very slip resistant, very good tactile sensitivity, very good dry and wet grip, medical devices class I, PPE risk category I, box per 100 pieces

8215 // POLYMER SOFT

Material:	Latex, white
Coating:	-
Size(n):	XS-XL
Packaging unit :	10 pieces
Certification:	-

NITRAS POLYMER SOFT, latex disposable gloves, white (colour code: 1100), non-sterile, rolled edge, powder free, manufactured according to EN 455, extra grip, ambidextrous (left and right hand), micro-roughened surface, polymer coating, medical gloves, AQL 1.5, particularly sensitive, perfect for working with small parts, very slip resistant, very good tactile sensitivity, very good dry and wet grip, medical devices class I, PPE risk category I, box per 100 pieces

8220 // BLACK SCORPION

Material:	Latex, black
Coating:	-
Size(n):	XS-XL
Packaging unit :	10 pieces
Certification:	EN ISO 374

NITRAS BLACK SCORPION, latex disposable gloves, black (colour code: 1000), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, extra grip, micro-roughened surface, colour code system for sizes, AQL 1.5, protection against micro-organisms and bacteria, particularly sensitive, perfect for working with small parts, very slip resistant, very good tactile sensitivity, very good dry and wet grip, medical devices class I, PPE risk category III, box per 100 pieces

NITRILE DISPOSABLE GLOVES

8300 // SUPREME NITRILE

Material:	Nitrile, blue
Coating:	-
Size(n):	S-2XL
Packaging unit :	10 pieces
Certification:	EN ISO 374, EN 421

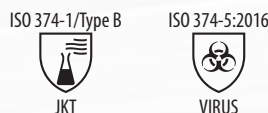

NITRAS SUPREME NITRILE, nitrile disposable gloves, blue (colour code: 2200), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, micro-roughened surface, colour code system for sizes, AQL 1.5, protection against micro-organisms, bacteria and viruses, protection against radioactive contamination by solid particles, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, medical devices class I, PPE risk category III, box per 100 pieces

8305 // PROTECT 300

Material:	Nitrile, purple
Coating:	-
Size(n):	S-L
Packaging unit :	10 pieces
Certification:	EN ISO 374

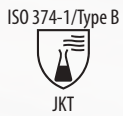

NITRAS PROTECT 300, nitrile disposable gloves, purple (colour code: 6200), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, micro-roughened fingertips, length approx. 300 mm, AQL 1.5, protection against micro-organisms, bacteria and viruses, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, medical devices class I, PPE risk category III, box per 100 pieces

8310 // WHITE WAVE

Material: Nitrile, white
Coating: -
Size(n): XS-XL
Packaging unit : 10 pieces
Certification: EN ISO 374, EN 421

NITRAS WHITE WAVE, nitrile disposable gloves, white (colour code: 1100), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, micro-roughened fingertips, colour code system for sizes, AQL 1.5, protection against micro-organisms, bacteria and viruses, protection against radioactive contamination by solid particles, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, medical devices class I, PPE risk category III, box per 100 pieces

2008310 // BIG WHITE WAVE

Material:	Nitrile, white
Coating:	-
Size(n):	S-XL
Packaging unit :	10 pieces
Certification:	EN ISO 374, EN 421

NITRAS BIG WHITE WAVE, nitrile disposable gloves, white (colour code: 1100), non-sterile, rolled edge, powder free, manufactured according to EN 455, for food contact, ambidextrous (left and right hand), medical gloves, micro-roughened fingertips, colour code system for sizes, AQL 1.5, protection against micro-organisms, bacteria and viruses, protection against radioactive contamination by solid particles, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, medical devices class I, PPE risk category III, box per 200 pieces

PERSONAL PROTECTIVE EQUIPMENT

8065 // HIGH RISK NITRILE

Material:	Nitrile, blue
Coating:	-
Size(n):	S-2XL
Packaging unit :	10 pieces
Certification:	EN 388, EN ISO 374

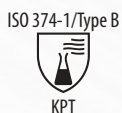

NITRAS HIGH RISK NITRILE, nitrile disposable gloves, blue (colour code: 2200), non-sterile, rolled edge, powder free, perfect fit, for food contact, ambidextrous (left and right hand), micro-roughened fingertips, colour code system for sizes, length approx. 280 mm, AQL 0.65, premium quality, protection against micro-organisms, bacteria and viruses, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, PPE risk category III, box per 50 pieces (sz. 2XL: box per 45 pieces)

8331 // TOUGH GRIP

Material:	Nitrile, black
Coating:	-
Size(n):	S-2XL
Packaging unit :	10 pieces
Certification:	EN 388, EN ISO 374

NITRAS TOUGH GRIP LIGHT, nitrile disposable gloves, black (colour code: 1000), non-sterile, rolled edge, powder free, innovative scale surface for perfect grip on wet and dry surfaces, perfect fit, for food contact, ambidextrous (left and right hand), colour code system for sizes, AQL 1.5, protection against micro-organisms and bacteria, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, PPE risk category III, box per 50 pieces

8330 // TOUGH GRIP N

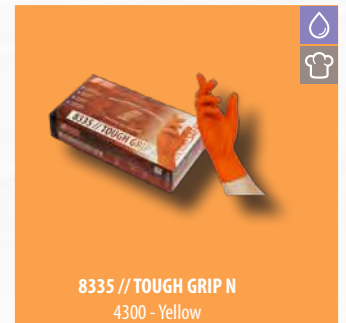

Material: Nitrile, black
Coating: -
Size(n): S-2XL
Packaging unit : 10 pieces
Certification: EN 388, EN ISO 374

NITRAS TOUGH GRIP N, nitrile disposable gloves, black (colour code: 1000), non-sterile, rolled edge, powder free, innovative scale surface for perfect grip on wet and dry surfaces, perfect fit, very robust, for food contact, ambidextrous (left and right hand), colour code system for sizes, AQL 1.5, protection against micro-organisms and bacteria, premium quality, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, PPE risk category III, box per 50 pieces

AI

8340 // TOUGH GRIP N 300

Material: Nitrile, blue
Coating: -
Size(n): S-2XL
Packaging unit : 10 pieces
Certification: EN 388, EN ISO 374

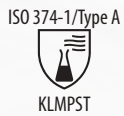

NITRAS TOUGH GRIP N 300, nitrile disposable gloves, blue (colour code: 2200), non-sterile, rolled edge, powder free, innovative scale surface for perfect grip on wet and dry surfaces, perfect fit, very robust, for food contact, ambidextrous (left and right hand), colour code system for sizes, length approx. 300 mm, AQL 1.5, protection against micro-organisms and bacteria, premium quality, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very robust and resistant, PPE risk category III, box per 50 pieces

3221 // BLUE CLEANER

Material: Latex, blue
Coating: -
Size(n): 7-10
Packaging unit : 144 pairs
Certification: EN 388, EN ISO 374

NITRAS BLUE CLEANER, chemical protective gloves, latex, blue (colour code: 2200), length 30 cm, flock lined, protection against micro-organisms and bacteria, for food contact, particularly sensitive, perfect for working with small parts, very slip resistant, very good tactile sensitivity, very good dry and wet grip, PPE risk category III

3451 // GREEN BARRIER FLEX

Material: Nitrile, green
Coating: -
Size(n): 7-11
Packaging unit : 144 pairs
Certification: EN 388, EN ISO 374, ISO 18889

NITRAS GREEN BARRIER FLEX, chemical protective gloves, nitrile, green (colour code: 3000), length 33 cm, flock lined, protection against micro-organisms, bacteria and viruses, for food contact, for use with pesticides, particularly sensitive, perfect for working with small parts, very good tactile sensitivity, very good dry and oil grip, very high abrasion resistance, very robust and resistant, PPE risk category III

PE DISPOSABLE GLOVES

4281

Material:	Polyethylene, transparent
Coating:	-
Size(n):	XL
Packaging unit :	100 pieces
Certification:	-

NITRAS PE disposable gloves, transparent (colour code: 1400), polyethylene, non-sterile, embossed, lightweight material, for food contact, ambidextrous (left and right hand), water-repellent, protection against dirt, men's size, box per 100 pieces

4286

Material:	Polyethylene, transparent
Coating:	-
Size(n):	M
Packaging unit :	100 pieces
Certification:	-

NITRAS PE disposable gloves, transparent (colour code: 1400), polyethylene, non-sterile, embossed, lightweight material, for food contact, ambidextrous (left and right hand), water-repellent, protection against dirt, women's size, box per 100 pieces

// ENSURE SAFETY

ACCESSORIES

522617

Material: Stainless steel, silver
Miscellaneous: Dimensions approx. 226 x 170 x 20 mm
Packaging unit : 1 piece

Glove holder for PE gloves, silver (colour code: 1900), stainless steel, bent, robust, can be filled individually with PE glove boxes, quick and easy taking out from below, without mounting material, no welded seams, supports hygienic processes, Made in Germany

MADE IN GERMANY

526095

Material: Stainless steel, silver
Miscellaneous: Dimensions approx. 26 x 39 x 12 cm
Packaging unit : 1 piece

Glove holder for disposable gloves, silver (colour code: 1900), stainless steel, robust, adjustable (width between 20 to 26 cm, depth between 4 to 9,5 cm), capacity: three boxes of disposable gloves, integrated size labeling, easy taking out, incl. knurled screws and fasteners, supports hygienic processes, Made in Germany

MADE IN GERMANY

525524 // FLEXIBLE HOLDER

Material:	Metal, black
Miscellaneous:	Dimensions approx. 28 x 9.5 cm
Packaging unit :	30 pieces

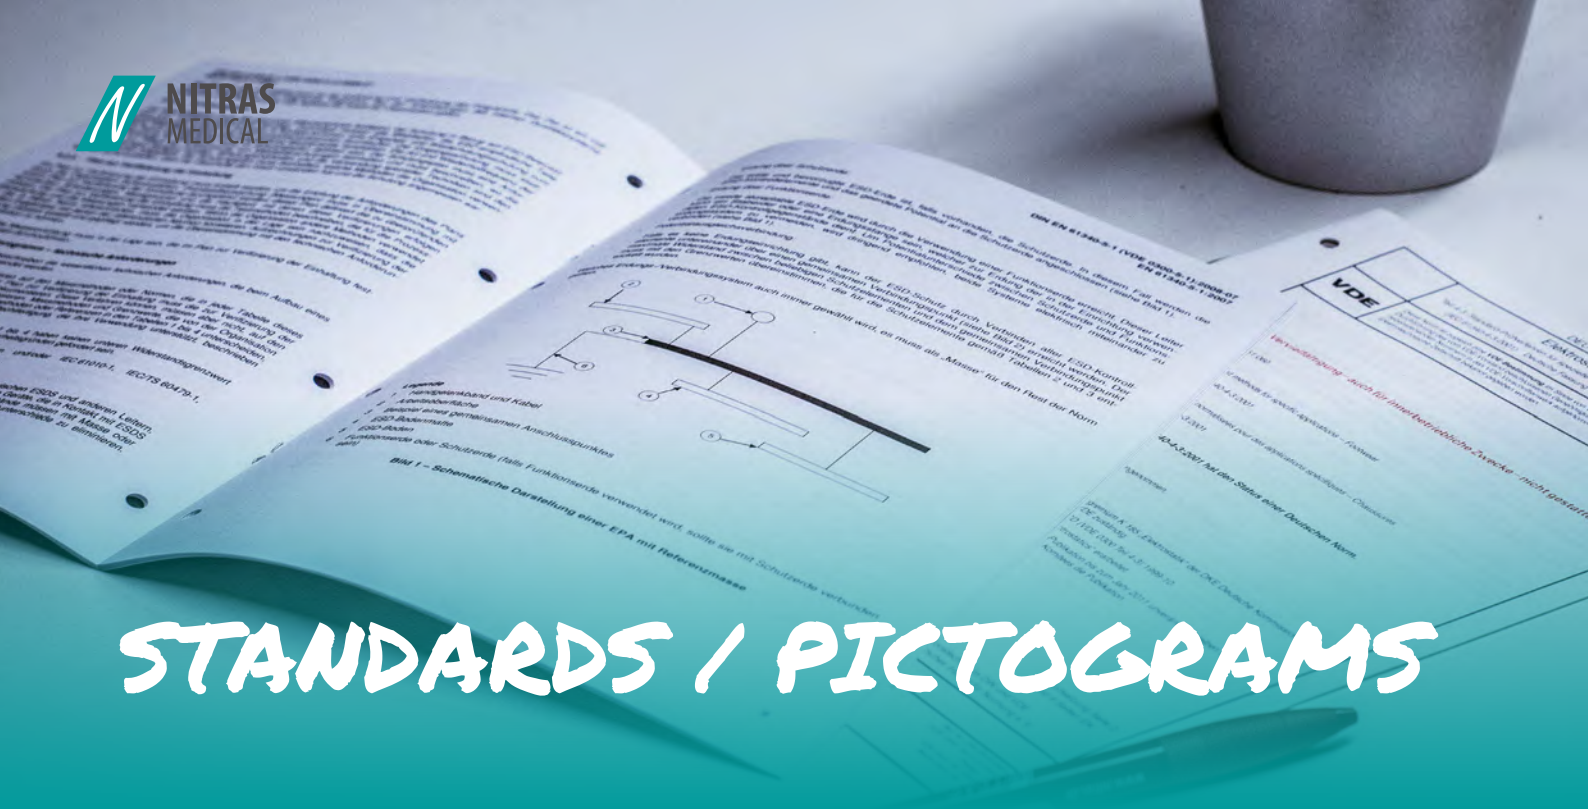

NITRAS FLEXIBLE HOLDER, glove holder, black (colour code: 1000), metal, powder-coated, magnetic, ideal for metallic surfaces, also for wall mounting, strong hold, capacity: two boxes of disposable gloves, height 28 cm, depth 9.5 cm, width individuell einstellbar, easy taking off, set incl. screws, supports hygienic processes

EN 16615

4-field-test

Quantitative test method for determining the bactericidal and levurocidal effect on non-porous surfaces with mechanical action using wipes in the field of human medicine.

Association for Applied Hygiene (VAH)

The Association for Applied Hygiene is the preferred authority when it comes to quality assurance in prophylactic disinfection. The VAH certifies disinfectants and publishes these products with the most important instructions for use in its VAH list.

IHO-list of virucides

List of virus-effective disinfectants published by the Industrial Association for Hygiene and Surface Protection (IHO).

Neutral

This pictogram indicates that the associated item has a neutral scent.

HAND DISINFECTION

AI

55250 // PROTECTASEPT SKIN

Type: Hand disinfection, ready-to-use
Content: 250 ml
Packaging unit : 12 pieces

NITRAS PROTECTASEPT SKIN, alcoholic, lipid-regulating and perfume-free disinfectant for hygienic and surgical hand disinfection, content 250 ml (spraying bottle), tested according to the latest requirements, can be used in all areas with increased risk, comprehensive spectrum of action against enveloped and non-enveloped viruses within a very short time, against bacteria incl. tuberculosis, fungi and all enveloped viruses such as HIV, HBV, HCV, influenza A, B, C viruses, herpes simplex viruses, etc., without addition of odourants or dyes, VAH listed, IHO listed, approved as a biocide, not a medical device, distribution in accordance with the Biocidal Products Ordinance only in Germany*

*Use biocidal products with care. Always read the label and product information before use.

55500 // PROTECTASEPT SKIN

Type: Hand disinfection, ready-to-use
Content: 500 ml
Packaging unit : 18 pieces

NITRAS PROTECTASEPT SKIN, alcoholic, lipid-regulating and perfume-free disinfectant for hygienic and surgical hand disinfection, content 500 ml (euro bottle), tested according to the latest requirements, can be used in all areas with increased risk, comprehensive spectrum of action against enveloped and non-enveloped viruses within a very short time, against bacteria incl. tuberculosis, fungi and all enveloped viruses such as HIV, HBV, HCV, influenza A, B, C viruses, herpes simplex viruses, etc., without addition of odourants or dyes, VAH listed, IHO listed, approved as a biocide, not a medical device, distribution in accordance with the Biocidal Products Ordinance only in Germany*

55001 // PROTECTASEPT SKIN

Type: Hand disinfection, ready-to-use
Content: 1,000 ml
Packaging unit : 10 pieces

NITRAS PROTECTASEPT SKIN, alcoholic, lipid-regulating and perfume-free disinfectant for hygienic and surgical hand disinfection, content 1,000 ml (euro bottle), tested according to the latest requirements, can be used in all areas with increased risk, comprehensive spectrum of action against enveloped and non-enveloped viruses within a very short time, against bacteria incl. tuberculosis, fungi and all enveloped viruses such as HIV, HBV, HCV, influenza A, B, C viruses, herpes simplex viruses, etc., without addition of odourants or dyes, VAH listed, IHO listed, approved as a biocide, not a medical device, distribution in accordance with the Biocidal Products Ordinance only in Germany*

55005 // PROTECTASEPT SKIN

Type: Hand disinfection, ready-to-use
Content: 5,000 ml
Packaging unit : 1 piece

NITRAS PROTECTASEPT SKIN, alcoholic, lipid-regulating and perfume-free disinfectant for hygienic and surgical hand disinfection, content 5,000 ml (canister), tested according to the latest requirements, can be used in all areas with increased risk, comprehensive spectrum of action against enveloped and non-enveloped viruses within a very short time, against bacteria incl. tuberculosis, fungi and all enveloped viruses such as HIV, HBV, HCV, influenza A, B, C viruses, herpes simplex viruses, etc., without addition of odourants or dyes, VAH listed, IHO listed, approved as a biocide, not a medical device, distribution in accordance with the Biocidal Products Ordinance only in Germany*

*Use biocidal products with care. Always read the label and product information before use.

SPRAY / WIPE DISINFECTION

AI

52001 // PROTECTASEPT SF

Type:	Spray / wipe disinfection, neutral
Content:	1.000 ml
Packaging unit :	20 pieces

NITRAS PROTECTASEPT SF, spray / wipe disinfection, ready-to-use and fast acting disinfection for medical areas to disinfect alcohol-resistant surfaces, scent: neutral, content 1,000 ml (spraying bottle incl. spraying head), free from aldehyde and phenol, VAH listed, IHO listed, comprehensive spectrum of action within a very short time, tested according to the latest requirements, licensed as medical device class IIa, distribution in accordance with the Biocidal Products Ordinance only in Germany and Austria*

*Use biocidal products with care. Always read the label and product information before use.

52005 // PROTECTASEPT SF

Type: Spray / wipe disinfection, neutral
Content: 5,000 ml
Packaging unit : 1 piece

NITRAS PROTECTASEPT SF, spray / wipe disinfection, ready-to-use and fast acting disinfection for medical areas to disinfect alcohol-resistant surfaces, scent: neutral, content 5,000 ml (canister), free from aldehyde and phenol, VAH listed, IHO listed, comprehensive spectrum of action within a very short time, tested according to the latest requirements, licensed as medical device class IIa, distribution in accordance with the Biocidal Products Ordinance only in Germany and Austria*

52771 // PROTECTASEPT SF

Type: Spray / wipe disinfection, flower
Content: 1,000 ml
Packaging unit : 20 pieces

NITRAS PROTECTASEPT SF, Spray / wipe disinfection, ready-to-use and fast acting disinfection for medical areas to disinfect alcohol-resistant surfaces, scent: flower, content 1,000 ml (spraying bottle incl. spraying head), free from aldehyde and phenol, VAH listed, IHO listed, comprehensive spectrum of action within a very short time, tested according to the latest requirements, licensed as medical device class IIa, distribution in accordance with the Biocidal Products Ordinance only in Germany and Austria*

52775 // PROTECTASEPT SF

Type: Spray / wipe disinfection, flower
Content: 5,000 ml
Packaging unit : 1 piece

NITRAS PROTECTASEPT SF, Spray / wipe disinfection, ready-to-use and fast acting disinfection for medical areas to disinfect alcohol-resistant surfaces, scent: flower, content 5,000 ml (canister), free from aldehyde and phenol, VAH listed, IHO listed, comprehensive spectrum of action within a very short time, tested according to the latest requirements, licensed as medical device class IIa, distribution in accordance with the Biocidal Products Ordinance only in Germany and Austria*

INSTRUMENT DISINFECTION

53202 // PROTECTASEPT IN

Type: Bohrerbad, ready-to-use
Content: 2,000 ml
Packaging unit : 14 pieces

NITRAS PROTECTASEPT IN, drill bath, for cleaning and disinfection of dental drills and rotary dental instruments, content 2,000 ml (bottle), mild pH-value reduces the wear of cutting edges, corrosion protection, excellent compatibility with materials, very good cleaning performance, biodegradable, free from aldehyde, VAH listed, IHO listed, broad spectrum efficacy, tested according to the latest requirements, licensed as medical product class IIb, distribution in accordance with the Biocidal Products Ordinance only in Germany*

54301 // PROTECTASEPT IN

Type: Instrument disinfection, concentrate
Content: 1,000 ml
Packaging unit : 26 pieces

NITRAS PROTECTASEPT IN, instrument disinfection for cleaning and disinfection of rotary and surgical instruments, content 1,000 ml (dosage bottle), tested according to the latest requirements, corrosion protection, excellent compatibility with materials, suitable for ultrasonic baths, very good cleaning performance, virucidal, free from aldehyde, VAH listed, IHO listed, broad spectrum efficacy, biodegradable, licensed as medical product class IIb, distribution in accordance with the Biocidal Products Ordinance only in Germany*

54305 // PROTECTASEPT IN

Type: Instrument disinfection, concentrate
Content: 5,000 ml
Packaging unit : 1 piece

NITRAS PROTECTASEPT IN, instrument disinfection for cleaning and disinfection of rotary and surgical instruments, content 5,000 ml (canister), tested according to the latest requirements, corrosion protection, excellent compatibility with materials, suitable for ultrasonic baths, very good cleaning performance, virucidal, free from aldehyde, VAH listed, IHO listed, broad spectrum efficacy, biodegradable, licensed as medical product class IIb, distribution in accordance with the Biocidal Products Ordinance only in Germany*

*Use biocidal products with care. Always read the label and product information before use.

DISINFECTANT WIPES

580060 // PROTECTASEPT DUO WIPES

- Type:** Disinfectant wipes, ready-to-use
- Content:** 60 wipes
- Packaging unit:** 20 pieces

NITRAS PROTECTASEPT DUO WIPES, ready-to-use disinfectant wipes for hands and surfaces, made of cellulose fibre, biodegradable fabric, scent: neutral, sheet dimensions approx. 14 x 21 cm, efficiency tested according to EN 16615, reclosable flowpack per 60 wipes, distribution in accordance with the Biocidal Products Ordinance only in Germany*

*Use biocidal products with care. Always read the label and product information before use.

58090 // PROTECTASEPT BIG SOFT

Type: Disinfectant wipes, ready-to-use
Content: 90 wipes
Packaging unit : 2 pieces

NITRAS PROTECTASEPT SOFT, ready-to-use disinfectant wipes for the rapid disinfection of alcohol-resistant surfaces, soft fabric, polyester/cellulose blend soaked with wipe disinfection, scent: flower, IHO listed, sheet dimensions approx. 30 x 28 cm, folded to roll height approx. 16 cm, bag not recloseable, efficiency tested according to EN 16615, roll per 90 wipes, distribution in accordance with the Biocidal Products Ordinance only in Germany*

58100 // PROTECTASEPT

Type: Disinfectant wipes, ready-to-use
Content: 100 wipes
Packaging unit : 1,200 pieces

NITRAS PROTECTASEPT, ready-to-use disinfectant wipes for the universal disinfection of alcohol-tolerant surfaces, polypropylene / viscose blend soaked with wipe disinfection, scent: lemon, IHO listed, sheet dimensions approx. 12 x 20 cm, wreclosable dispenser box, efficiency tested according to EN 16615, dispenser box per 100 wipes, distribution in accordance with the Biocidal Products Ordinance only in Germany*

58112 // PROTECTASEPT

Type: Disinfectant wipes, ready-to-use
Content: 100 wipes
Packaging unit : 1,200 pieces

NITRAS PROTECTASEPT, ready-to-use disinfectant wipes for the universal disinfection of alcohol-tolerant surfaces, polypropylene / viscose blend soaked with wipe disinfection, scent: lemon, IHO listed, sheet dimensions approx. 12 x 20 cm, not reclosable refill bag, efficiency tested according to EN 16615, matching article 58100, polybag per 100 wipes, distribution in accordance with the Biocidal Products Ordinance only in Germany*

*Use biocidal products with care. Always read the label and product information before use.

SOAPS

5950 // SILK TOUCH

Type: Cream soap, white
Content: 1,000 ml
Packaging unit : 12 pieces

NITRAS cream soap, white (colour code: 1100), opaque, odorless, well cleaning and liquid soap with pearlescent effect, leaves the skin feeling comfortable after use, without perfume and dyestuffs, contains lipid replenishing ingredients, slightly preserved, pH-skin neutral, dermatologically tested, content 1,000 ml

50010 // SILK TOUCH

Type: Cream soap, white
Content: 10,000 ml
Packaging unit : 1 piece

NITRAS cream soap, white (colour code: 1100), opaque, odorless, well cleaning and liquid soap with pearlescent effect, leaves the skin feeling comfortable after use, without perfume and dyestuffs, contains lipid replenishing ingredients, slightly preserved, pH-skin neutral, dermatologically tested, content 10,000 ml (canister)

ACCESSORIES

5645

Material: Cellulose, white

Miscellaneous: -

Packaging unit : 12 pieces

Cellulose swabs, white (colour code: 1100), non-woven fabric, soft, bleached, 12-ply, pre-cut, dimensions: approx. 4 x 5 cm, versatile, retains its shape even when wet, good fluid absorption, 2 rolls per 500 wipes

56070

Material: Viscose / polyethylenterephthalate, white

Miscellaneous: -

Packaging unit : 20 pieces

Alcohol swabs, white (colour code: 1100), viscose / polyethylenterephthalate, soaked with 70% isopropyl alcohol, lint-free, antiseptic, dimensions: approx. 6.5 x 3 cm, folded approx. 3 x 3 cm, ready-to-use, fast and reliable disinfection, single packaging for more hygiene, box per 100 pieces

563032 // SOFT CARE

Material: Non-woven fabric, white
Miscellaneous: Folding type Z fold
Packaging unit : 20 pieces

NITRAS SOFT CARE, care cloths, white (colour code: 1100), non-woven fabric, very soft, made of textile fibres (viscose / polyester), 1-ply, Z fold, 32 x 30 cm (W x H), closed surface structure, good absorbency, low-linting, tear resistant in both dry and wet conditions, soft cleaning, dermatologically tested, polybag per 50 wipes

5670

Material: Polyethylenterephthalate, white
Miscellaneous: -
Packaging unit : 10 pieces

NITRAS non-woven fabric roll, white (colour code: 1100), polyethylenterephthalate, dry wipes for impregnating with surface disinfection, dimensions of sheet: approx. 29 x 30 cm, folded approx. 14.5 cm, high dimensional stability, good fluid absorption, versatile, single packaging, rolls per 70 wipes

5690 Packaging unit: 8 rolls per 90 wipes

500057

Material: Polyethylene, blue / white
Miscellaneous: -
Packaging unit : 1 piece

Dispenser bucket for wet non-woven disinfection wipes, blue / white (colour code: 2211), polyethylene, very robust, with carrying handle, transparent lid with blue dispensing opening, reliable protection against drying out, capacity approx. 5,700 ml, height approx. 19.4 cm, refillable and reusable, easy and hygienic dispensing of wipes

57090-B

Material: Polyethylene, blue / white

Miscellaneous: -

Packaging unit : 1 piece

Dispenser bucket for wet non-woven disinfection wipes, blue / white (colour code: 2211), polyethylene, very robust, with carrying handle, transparent lid with blue dispensing opening, reliable protection against drying out, capacity approx. 3,400 ml, height approx. 15.4 cm, refillable and reusable, easy and hygienic dispensing of wipes

580510

Material: Polyethylene, white / black

Miscellaneous: -

Packaging unit : 1 piece

Canister pump, white / black (colour code: 1110), polyethylene, robust and durable, dosage approx. 30 ml per stroke, prevents spillage or overdosing, length approx. 24 cm, for 5,000 ml and 10,000 ml canister, incl. riser tube (without illustration), accurate and controlled dosing, easy to use, reusable

58001

Material:	Polyethylene, white
Miscellaneous:	-
Packaging unit :	1 piece

Dosing pump, white (colour code: 1100) polyethylene, for 500 ml and 1,000 ml hand disinfection (euro bottle), dosage approx. 4 ml per stroke, length approx. 15.2 cm, matching articles 55001 and 55500

58005

Material:	Polyethylene, white / rot
Miscellaneous:	-
Packaging unit :	1 piece

Dosing pump, white (colour code: 1100) Polyethylene, robust and durable, dosage approx. 4 ml per stroke, prevents spillage or overdosing, easy and clean to use, length approx. 15.2 cm, easy to attach, reusable, for 500 ml and 1,000 ml hand disinfection (euro bottle), matching articles 55001 and 55500

051500

Material:	Plastic / aluminium, white
Miscellaneous:	-
Packaging unit :	1 piece

NITRAS spare pump for disinfection dispenser 500 ml, white (colour code: 1100), plastic / aluminium, robust and durable, green wide-neck adapter, reliable and even dosage, easy and fast mounting, delivery without rubber

010000 Spare pump for disinfection dispenser 1,000 ml

56500

Material: Aluminium / plastic, silver / white
Miscellaneous: Dimensions approx. 16 x 24.3 x 8.3 cm
Packaging unit : 14 pieces

NITRAS disinfection dispenser with arm lever, silver / white (colour code: 1911), aluminium / plastic, robust and durable, dimensions approx. 16 x 24.3 x 8.3 cm, capacity 500 ml, easy filling, precise and consistent dosing, incl. wall mounting material, removable pump, arm lever short

56001 Arm lever long, capacity 1.000 ml, dimensions approx. 21.5 x 24.5 x 8.2 cm

000500

Material: Aluminium / plastic, silver / white
Miscellaneous: Dimensions approx. 32.5 x 15 x 3 cm
Packaging unit : 36 pieces

NITRAS dripping tray incl. tray holder, silver / white (colour code: 1911), aluminium / plastic, robust and durable, dimensions approx. 32.5 x 15 x 3 cm, small, to hang over the disinfection dispenser, prevents dirt from getting on the floor, easy to remove for cleaning, matching article 56500

01500 Big, matching article 56001, dimensions approx. 37.5 x 14.5 x 2.9 cm

004500

Material: Aluminium, silver
Miscellaneous: Dimensions approx. 16.5 x 7.5 x 7 cm
Packaging unit : 10 pieces

NITRAS closing plate for disinfection dispenser with arm lever, silver (colour code: 1900), aluminium, robust and durable, dimensions approx. 16.5 x 7.5 x 7 cm, small, easy and fast mounting, with window and lock, two keys, matching article 56500

004001 Big, matching article 56001, dimensions approx. 19.5 x 9 x 7.5 cm

5600

Material: Non-woven fabric, yellow

Miscellaneous: -

Packaging unit : 1 piece

All purpose cloth, yellow (colour code: 4300), non-woven fabric, size 38 x 38 cm, for quick cleaning, high absorbency, versatile, can be used dry or wet, good dirt absorption, carton per 350 pieces

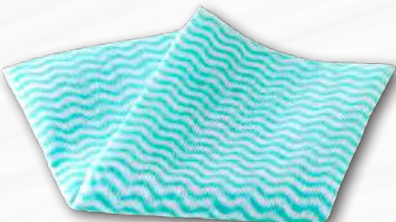

5610

Material: Microfibre, green / white

Miscellaneous: -

Packaging unit : 1 piece

Wiping cloth, green /white (colour code: 3011), microfibre, size 37 x 51 cm, perforated for improved cleaning, excellent absorbency, can be used dry or wet, good dirt absorption, lightweight at 40 g, carton per 900 pieces

05500 // EASY PUMP

Material: Polyethylene, white / transparent

Miscellaneous: -

Packaging unit : 100 pieces

NITRAS EASY PUMP, Air pump bottle, transparent (colour code: 1400), polyethylene, robust and durable, capacity 500 ml, with white spraying head, even and economical dosage, refillable and reusable, easy to use, suitable for many liquids

562110

Material: Plastic, white

Miscellaneous: Soft-touch surface

Packaging unit : 1 piece

Seifenspender, white (colour code: 1100), ABS-Plastic, robust and durable, pleasant soft-touch surface, capacity of 550 ml, dimensions: 21,6 cm x 10,2 cm x 9,0 cm, can be freely filled with almost all common soaps with high viscosity, even and economical dosage, incl. viewing window to check fill level, modern design, removal by push button

5700

Material: Non-woven fabric, white

Miscellaneous: -

Packaging unit : 20 pieces

NITRAS washing gloves, white (colour code: 1100), non-woven fabric, absorbent and tear-resistant, dimensions: approx. 21 x 13,5 cm, dry, ultrasonic, extra soft, for cleaning of patients in need of care, very hygienic, polybag per 50 pieces

570008 // CLEAN CARE

Material: Non-woven fabric, white

Miscellaneous: -

Packaging unit : 24 pieces

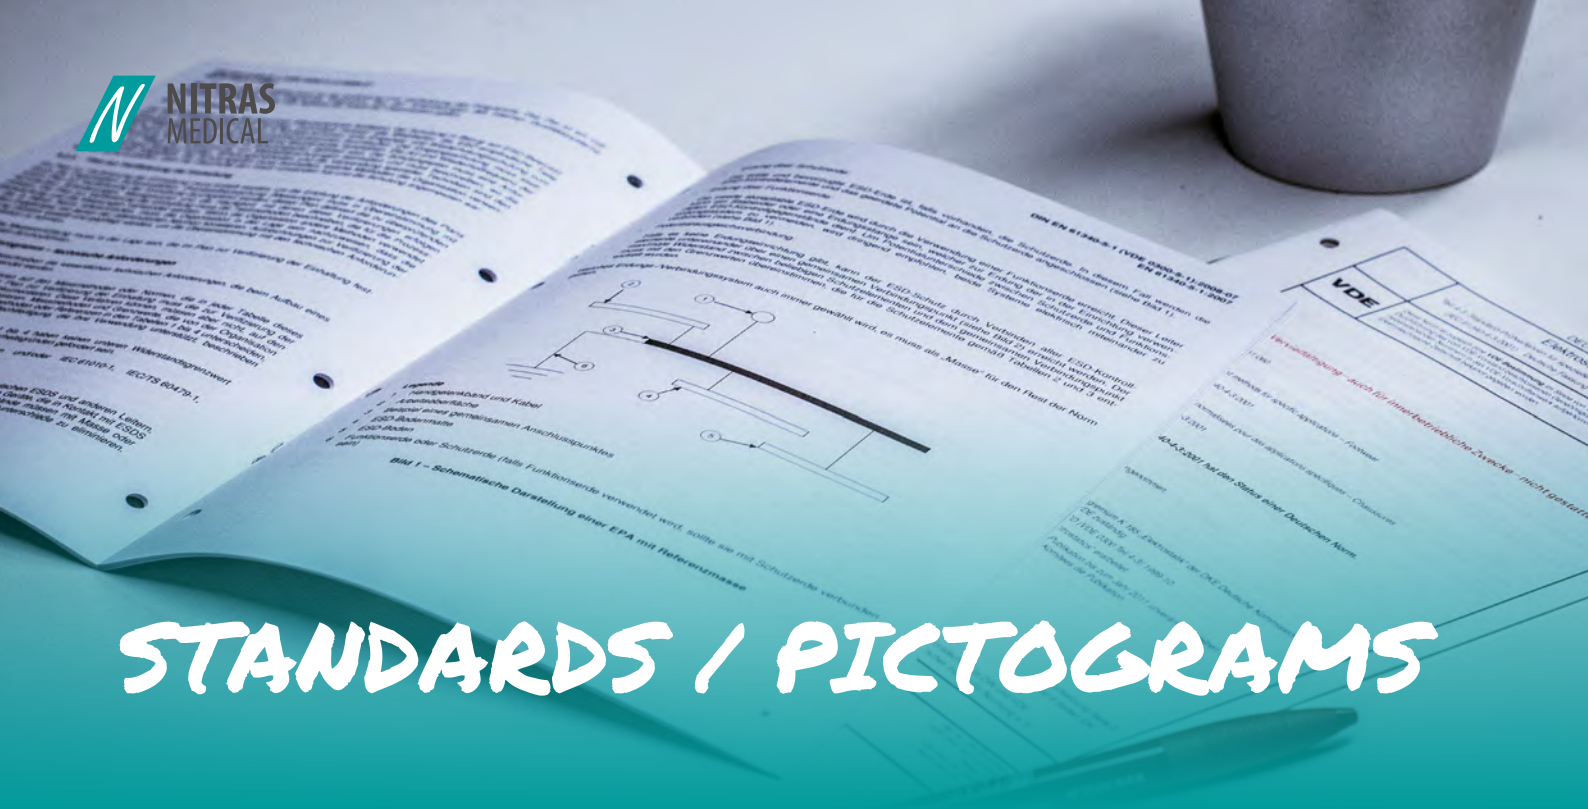

NITRAS CLEAN CARE, wet washing gloves, white (colour code: 1100), non-woven fabric, tear-resistant, dimensions approx. 23 x 14 cm, caring with aloe vera and camomile extract, microwaveable, for cleaning of patients in need of care, practical individual dispensing, a washing glove for every part of the body, very hygienic, bag per 8 pieces

STANDARDS / PICTOGRAMS

All performance levels, pictograms and information listed in this catalogue are correct as of February 2026. This information may change during the validity period of this catalogue. Please do not hesitate to contact us at any time should you have any queries or require up-to-date information. All information is provided without guarantee.

EN ISO 23907 Protection against puncture and cut injuries – Requirements and test methods – Containers for sharp and pointed waste

Sets out requirements for single-use containers for sharp and pointed waste, which are intended to contain potentially hazardous sharp and pointed items of medical waste or items without protective devices against puncture and cut injuries, such as scalpel blades, trocars, injection needles and syringes. This standard covers containers for sharp and pointed waste that are supplied complete by the manufacturer and those that are supplied in parts and are to be assembled by the user.

EN ISO 11140-1 Sterilisation of healthcare products – Chemical indicators – General requirements

Sets out requirements for chemical indicators used to monitor sterilisation processes and classifies them into different indicator classes (Types 1–6) according to their response to defined sterilisation parameters.

EN ISO 11140-4 Sterilisation of healthcare products – Chemical indicators – Class 2 indicators used as an alternative to the Bowie-Dick test for verifying steam penetration

Sets out requirements for multi-parameter indicators that respond simultaneously to two or more critical parameters of a sterilisation process, thereby enabling enhanced process monitoring.

EN ISO 11140-6 Sterilisation of healthcare products – Chemical indicators – Class 2 indicators and test specimens for the performance testing of small steam sterilizers

Sets out requirements for process control devices (PCDs) with chemical indicators for the routine monitoring of steam sterilisation processes, in order to reliably verify adequate steam penetration and the achievement of the necessary sterilisation conditions.

Tested according to EN 12875

This pictogram indicates that the corresponding article has been tested in accordance with EN 12875. EN 12875 regulates the requirements and test methods for determining dishwasher resistance.
