## A MASTERPIECE OF NATURE

### NITRAS - PROTECTIVE CLOTHING

Our body is a masterpiece of nature and combines a perfect interaction of skeleton, muscles, nerves and organs. In this way our body ensures that we are always efficient and ready for action. Contribute to this and offer your body the optimal protection and practical support it needs - your body deserves it!

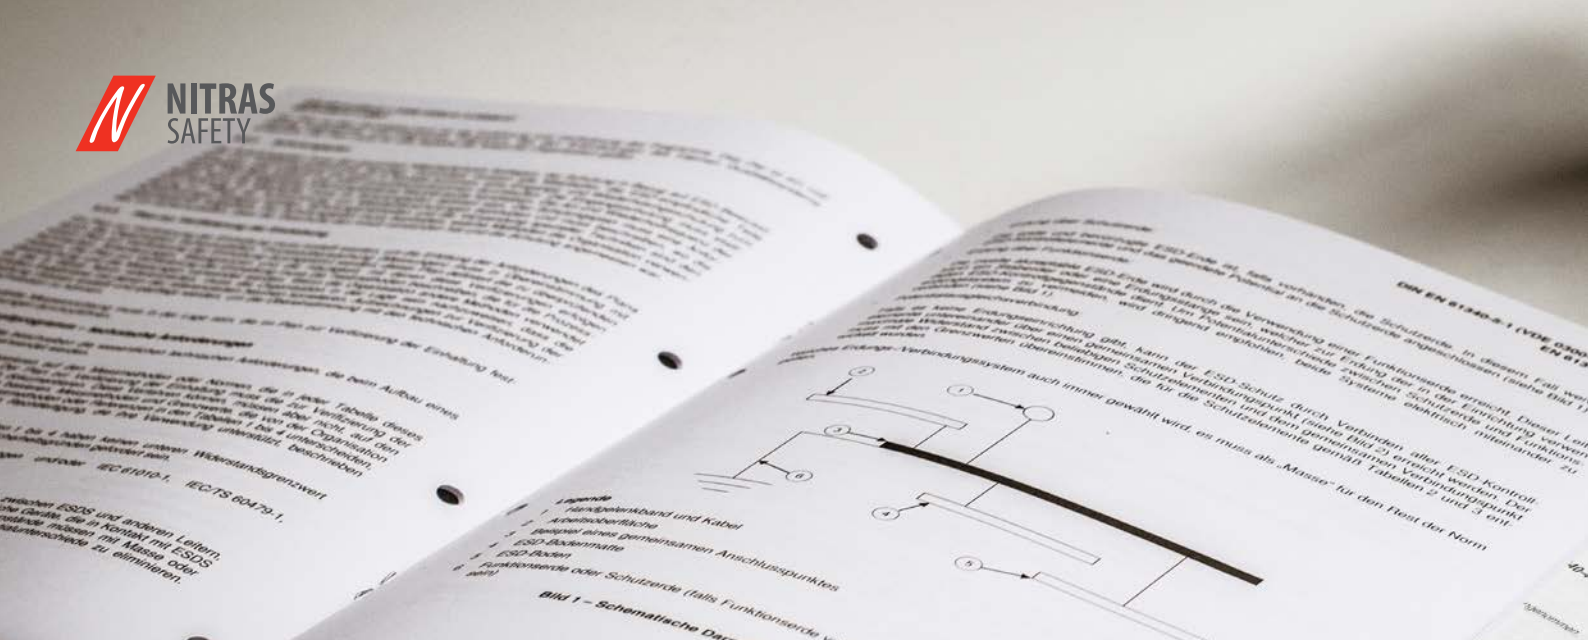

We cover the most common work areas with our range of protective clothing. These include high visibility clothing and chemical protective clothing. So you are always optimally equipped. Due to the high functionality, the practical details and the accessories, you will find the right equipment for all weather and environmental conditions, which makes your everyday life more comfortable and safer. With NITRAS you can be sure: we offer you performance that fits!

# STANDARDS AND PICTOGRAMS

All performance levels, pictograms and information specified in this catalogue comply with the state as of September 2023. These are subject to change during the validity of this catalogue. Please contact us for any queries or current information. All information is subject to change.

General explanations of achieved performance levels (all tests were carried out under laboratory conditions):

- 1-6 / A-F     Achieved test result (the higher, the better)
- 0             Minimum performance level not achieved
- X             Not tested or not applicable due to the material or design

<b>EN ISO 13688</b>	<b>Protective clothing - general requirements</b>	General performance requirements for ergonomics, harmlessness, size designation, aging, compatibility and characterisation of protective clothing as well as the information that the manufacturer must provide with the protective clothing.
<b>EN 14605</b>	<b>Protective clothing against liquid chemicals</b>	Performance requirements for clothing with liquid-tight (type 3) or spray-tight (type 4) connections, including items providing protection to parts of the body only (types PB [3] and PB [4]).
<b>EN ISO 13982-1</b>	<b>Protective clothing for use against solid particulates</b>	Performance requirements for chemical protective clothing providing protection to the full body against airborne solid particulates (type 5 clothing).
<b>EN 13034</b>	<b>Protective clothing against liquid chemicals</b>	Performance requirements for chemical protective clothing offering limited protective performance against liquid chemicals (type 6 and type PB [6] equipment).
<b>EN 14126</b>	<b>Protective clothing against infective agents</b>	Performance requirements and test methods for protective clothing against infective agents.
<b>EN 1073-2</b>	<b>Protective clothing against radioactive contamination</b>	Requirements and test methods for non-ventilated protective clothing against particulate radioactive contamination.

**EN 1149**

**Protective clothing - Electrostatic properties**

Part 5: material performance and design requirements.

**EN 343**

**Protective clothing - Protection against rain**

A  
B  
C

Requirements and test methods for materials and seams of protective clothing against the influence of precipitation (e.g. rain, snow), fog and ground humidity.

Test parameter	Performance level
A Resistance to water	1-4
B Water vapour permeability	1-4
C Finished garment tested in the rain tower	R*

\* Note: If the garment has not been tested, R will be replaced with X.

**EN ISO 20471**

**High-visibility clothing**

A

Requirements for high-visibility clothing which signals the presence of wearers visually. The high-visibility clothing ensures that the wearer is strikingly visible for drivers or operators of other technical equipment in all lighting conditions; both under conditions in daylight or under spotlight in the dark. The class of clothing depends on the smallest area of the visible material.

Test parameter	Class		
A Minimum area of the visible material in square meters	1-3		
Material	Class 3	Class 2	Class 1
Background material	0,80 sqm	0,50 sqm	0,14 sqm
Retroreflective material	0,20 sqm	0,13 sqm	0,10 sqm
Material with combined features	n. a.	n. a.	0,20 sqm

**EN 13758-2**

**Protective properties against ultraviolet solar radiation**

UPF 40+

Requirements for clothing intended to protect the wearer against exposure to ultraviolet solar radiation.

**Wash-care instructions**

Machine wash 60° C	Do not tumble dry
Machine wash 40° C	Warm iron
Machine wash 30° C	Cold iron
Do not wash	Do not iron
Do not bleach	Dry cleaning possible
Tumble dry, low temperature	Do not dry clean

**Hydrostatic head / Breathability**

This pictogram indicates the hydrostatic head (mmH<sub>2</sub>O) as well as the breathability (g/sqm/24h) of shell fabric or complete garments.

**3M Scotchlite™ Reflective Material**

**3M Scotchlite™**  
Reflective Material

3M Scotchlite™ Reflective Material ensures the early identification of people at dusk, darkness and poor visibility and protects them against possible serious accidents. Due to 3M Scotchlite™ Reflective Material, the user is more visible and it is possible to recognise him quickly. Therefore 3M Scotchlite™ Reflective Material is an important part of modern workwear.

## GUNOVA

**gunova**

GUNOVA chemical protective aprons are made of strong and resistant PVC foil, have reinforced and welded in plastic eyelets and their neck and side ribbons are made of polyester drill.

### Premium quality

The quality of our products is our first priority and our whole product range is meeting our high standards. Products which have further premium features (e.g. due material selection, fitting, characteristics, finishing) are marked with this pictogram.

### Reflective elements

This pictogram indicates clothing that are equipped with reflective elements. Reflective elements are used for better visibility in poor visibility conditions.

### Multifunctional garments

This pictogram indicates garments that allow multiple wearing options by turning or removing components of the garment.

## SUSTAINABILITY TRAFFIC LIGHT

### Packaging

Packaging used consists entirely or partially of recycled materials.

### Social aspects

The production is amfori BSCI-audited (or according to a comparable standard) and thus contributes to the improvement of social standards or working conditions in the country of production.

# SIZE CHARTS

Following, we provide you with extensive and detailed information which is relevant for determining the correct sizes:

1. International sizes
2. Conversion jeans sizes
3. Fits
4. Fit (example)
5. Protective overalls (size charts)
6. High-visibility clothing (size charts)

## 1. International sizes

DE	IT	FR	ES	GB	RU	International
42	42	38	32	32	42	3XS
44	44	40	34	34	44	2XS
46	46	42	36	36	46	XS
48	48	44	38	38	48	S
50	50	46	40	40	50	M
52	52	48	42	42	52	L
54	54	50	44	44	54	XL
56	56	52	46	46	56	2XL
58	58	54	48	48	58	3XL
60	60	56	50	50	60	3XL
62	62	58	52	52	62	4XL
64	64	60	54	54	64	4XL
66	66	62	56	56	66	5XL
68	68	64	58	58	68	5XL
70	70	66	60	60	70	6XL
72	72	68	62	62	72	6XL

Since body proportions can vary widely in different countries it is not easily possible to translate sizes at international level. Therefore there is no binding and consistent way to translate sizes. For your guidance we offer the below mentioned guide values. Based on this information you are able to draw valuable conclusions about the correct size in different countries and to advise your customers accordingly. For further information please do not hesitate to contact us.

## 2. Conversion jeans sizes

Size	Jeans size			Size	Jeans size			Size	Jeans size		
24	34/28	34/30		46	32/30		32/32	90	31/32		31/34
25	35/28	35/30	36/32	48	33/30		33/32	94	32/32		32/34 32/36
26	38/28	38/30	38/32	50			34/32 34/34	98			33/34 33/36
27	40/28	40/30	40/32	52			35/32 35/34	102			34/34 34/36 35/34 35/36
28	42/28	42/30	42/32	54			38/32 38/34	104			36/34 36/36
29	44/30		44/32	56			40/32 40/34	110			38/36
				58			42/32 42/34				
				60			44/32				

The conversion of clothing sizes and jeans sizes is also not binding and uniform. This information is for orientation purposes only. Other jeans sizes can be converted according to the information provided.

## 3. Fits

**Regular Fit** is defined by a classic fit and a straight cut.  
Recommendation: articles marked with this pictogram should be ordered in the regular size.

**Comfort Fit** is defined by a comfortable fit and a wide cut.  
Recommendation: articles marked with this pictogram should be ordered one size smaller.

**Long Fit** is defined by an optimal wearing comfort, goes along with every movement and shirt stays where it should be. Long Fit is an additional property of the Regular Fit and Comfort Fit.

## 4. Fit (example)

Characterisation	Measurements (cm)
A Body height	188
B Chest girth	114
C Waist girth	110
D Inner leg length	76
E Sleeve length	63
F Back length	65

Our model is wearing our work jacket 7554 // MOTION TEX LIGHT and our long work trousers 7514 // MOTION TEX LIGHT in size 54.

# FINISHING OF HIGH-VISIBILITY CLOTHING

In addition to the finishing of workwear, you can also use our service (see page 9 in our main catalogue) for high-visibility clothing. In this case, please take following points into account.

The classes of high-visibility clothing (1-3) are linked to minimum areas of the background material and the retroreflective material. These areas must not be less than the given dimensions, because otherwise the class and protective function of the high-visibility clothing no longer apply respectively are no longer given. The applicable classes according to EN ISO 20471 and the corresponding minimum areas can be found on page 5.

Accordingly, company logos may only be attached up to a certain size. We assume no liability for larger patches.

Example: If a high-visibility waistcoat fulfils class 2 with 0.55 sqm background material, a company logo may only be applied up to a size of 0.05 sqm. In addition, the reflective stripes must not be interrupted and the background material must enclose the body in at least one place with 5 cm.
